

Forklift Spreader Bar

Spreader Bar for Forklifts - ELME has been proudly operating since nineteen seventy four, becoming the biggest independent spreader manufacturer in the world. They are a devoted maker of spreaders meant for a lot of various applications like for example the swap bodies, trailers, and handling of containers.

ELME currently has over 125 staff with all engineering is done in-house by using all the most up-to-date FEM tools and CAD systems. Their spreaders are supplied to reach lift trucks, gantry, quayside, ship-to-shore cranes, stackers and straddle carriers across the globe.

The product series of ELME consist of lots of spreaders used for several container and trailer handling operations. Several of their inventory include: Reach Stackers, Harbour Cranes, Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail Mounted and Rubber Tired Gantry Cranes as well as a wide array of additional parts.

ELME manufacturing and production is performed in a highly automated purpose built factory. In the year 2008, they made over one thousand one hundred fifty spreaders by means of using high quality parts so as to ensure reliability and high standards while offering reasonable prices. Major characteristics of ELME include design simplicity, market response and inventive modular spreader concept.
