

Clark Forklift Part

Clark Forklift Part - Currently, there are at least 350,000 Clark lift trucks performing worldwide, and upwards of 250,000 operating in North America alone. With five major lines across the world, Clark is proud to be one of the most expansive companies in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 distinctive designs of lift trucks, with parts covering more than 120,000 specific components for all of its automated equipment. Your regional Clark Supplier is your total source for availability of all your components needs offered by Clark Totalift.

Clark's phenomenal Parts Distribution Facilities are conveniently situated in Louisville, Kentucky, which serves both their consumers and sellers in North America, and Changwon, South Korea, which handles their Asian dealers and consumers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing producers. Motivated to supply the highest level of value and service to our users, Clark remains on the cutting edge when it comes to improving efficiency and benefiting performance.

Clark Totalift has a very impressive worldwide support network. With over 550 locations globally, supplier representation in over 80 nations and 230 locations in North America, their high level of dedication to their customers predominates the materials handling industry.

By pioneering the operator restraint system safety feature, Clark proudly remains a leader of refinement in the industrial equipment and automated forklift industry. This exceptional dedication to safety is at this time a standard feature on every forklift.

Clark's recurrent mission to have the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck manufacturer across the globe to be certified with the internationally accepted quality standard ISO 9001 for every one of their manufacturing facilities. Furthermore, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be prepared for any environmental limitations, thus placing them in a prevailing market position.

Clark has chosen the extremely economical and beneficial system of "Lean Production" for its assembly facilities and use of resources. This system was developed to acknowledge the most efficient approaches of manufacturing facility management and ensuring maximum proficiency. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers communicate together to improve the effectiveness and excellence of their products while minimizing costs. The new value engineering program combines progressive product improvement and delivers improved client support and service within the industry.
