

TCM Forklift Part

TCM Forklift Parts - Forklift trucks are an important player in the material handling field of each and every global business. Transporting industrial goods occurs each and every day on our busy world. Originally innovated as industrial vehicles in the 1930s in America, lift trucks gained popularity following WWII during the 1940s. Becoming an efficient and reliable means to material handling solutions, the need and practicality of these equipment spread internationally.

In the year 1949, founded by Mr. N. Niwa, the original Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was established. Now the company is simply known as TCM Corporation. Throughout the years, TCM lift trucks have become an international leader in forklift manufacturing and have built a solid reputation in the business. TCM began constructing forklift manufacturing locations outside of Japan in the 1980s and is presently engaged in forklift manufacturer at three foreign factories in Europe, China and the United States.

TCM proudly makes various models of industrial forklifts with more than 50 years of accumulated expertise and technology, making their products recognized and used all over the world. Characterized by strong initiatives and energetic staff, TCM continues to look toward the future and aims to become a world-class leading business.
