

Meritor Parts

Meritor Parts - The Meritor Company is a premier global dealer built upon 100 years of tradition of service and quality. Meritor concentrates on integrated systems together with various modules and components to the original machinery manufacturers and aftermarket equipment within the transportation and industrial trades.

Meritor prides itself in the company's unique energy and believes that this energy contributes to their competitive advantage in the global operations. The company values all their customers and wishes to ensure their success while anticipating their diverse needs. Meritor begins with a philosophy that values diversity of people and their broad thought processes. Operating in 19 nations and hiring more than eleven thousand two hundred individuals, Meritor promotes collaboration and innovation amongst a team of experienced experts.

By just hiring future focused individuals, Meritor strongly believes these top-caliber workers will be able to rapidly adapt to changing environments and demonstrate the performance and commitment required to be able to attain results in the competitive materials handling business. The business empowers their teams to make sound business decisions so as to enhance the overall success of the company. In return, Meritor offers all of their workers different opportunities for professional and personal growth.

Their Advanced Engineering team is at the forefront of parts and system engineering which include drivelines, axles, braking and suspension systems used for heavy duty and medium trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is growing. They opened a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives which represent the entire Asia Pacific region. This team is even responsible for supporting the needs of all their global engineering personnel.

The Quality team at Meritor is a dynamic and customer-focused group which is dedicated to ensuring optimum progress at their production plants and aftermarket distribution facilities that are located on 5 continents and in 19 countries.

They have their supplier network which is particularly situated to support the development of the business. Each and every regional team has globally supported initiatives, quality systems and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a data-driven, fact-based approach to decision making within each and every part of the company. The DFSS or Design for Six Sigma ensures product reliability in every region. The team is even included transactional Green Belts who utilize Six Sigma tools to business methods and apply lean techniques.
